MANILA (AP) — The Philippine government is expected to launch a major military offensive against the Islamic militant group Abu Sayyaf in Basilan province on Tuesday, according to a senior government official. The official said that the government has been preparing for this operation for several months and that it is now ready to launch it. The operation is expected to be a major turning point in the conflict with the Abu Sayyaf group.

The government has been fighting a long and difficult battle against the Abu Sayyaf group in Basilan province. The group has been responsible for a series of attacks on civilians and government forces. The government has been trying to weaken the group's base of support in the province. The operation on Tuesday is expected to be a major blow to the group.

Nutrition Month Celebration 2007

'Healthw lifestyle ng kabataan, landas sa kinabukasan!'

Nutrition Month 2007 is a celebration of the importance of nutrition in the lives of all Filipinos. It is a time to promote healthy eating habits and to encourage the use of locally sourced food products.

One of the main goals of Nutrition Month is to promote healthy eating habits among children. This is done through various activities such as cooking demonstrations, food tastings, and educational materials.

Another important goal is to promote the use of locally sourced food products. This helps to support local farmers and to ensure that the food is fresh and nutritious.

Finally, Nutrition Month also aims to promote a healthy lifestyle among children. This includes encouraging them to eat a balanced diet, get regular exercise, and avoid smoking and drinking alcohol.

By promoting these goals, Nutrition Month hopes to create a healthier and more vibrant future for the Philippines.

As a result, the number of people who are eating healthy food has increased significantly. This is a positive trend that shows the impact of the Nutrition Month campaign.

Another important factor is the increase in the number of people who are using locally sourced food products. This helps to support local farmers and to ensure that the food is fresh and nutritious.

Finally, the number of people who are adopting a healthy lifestyle has also increased.
